

COBA TEST GUIDE

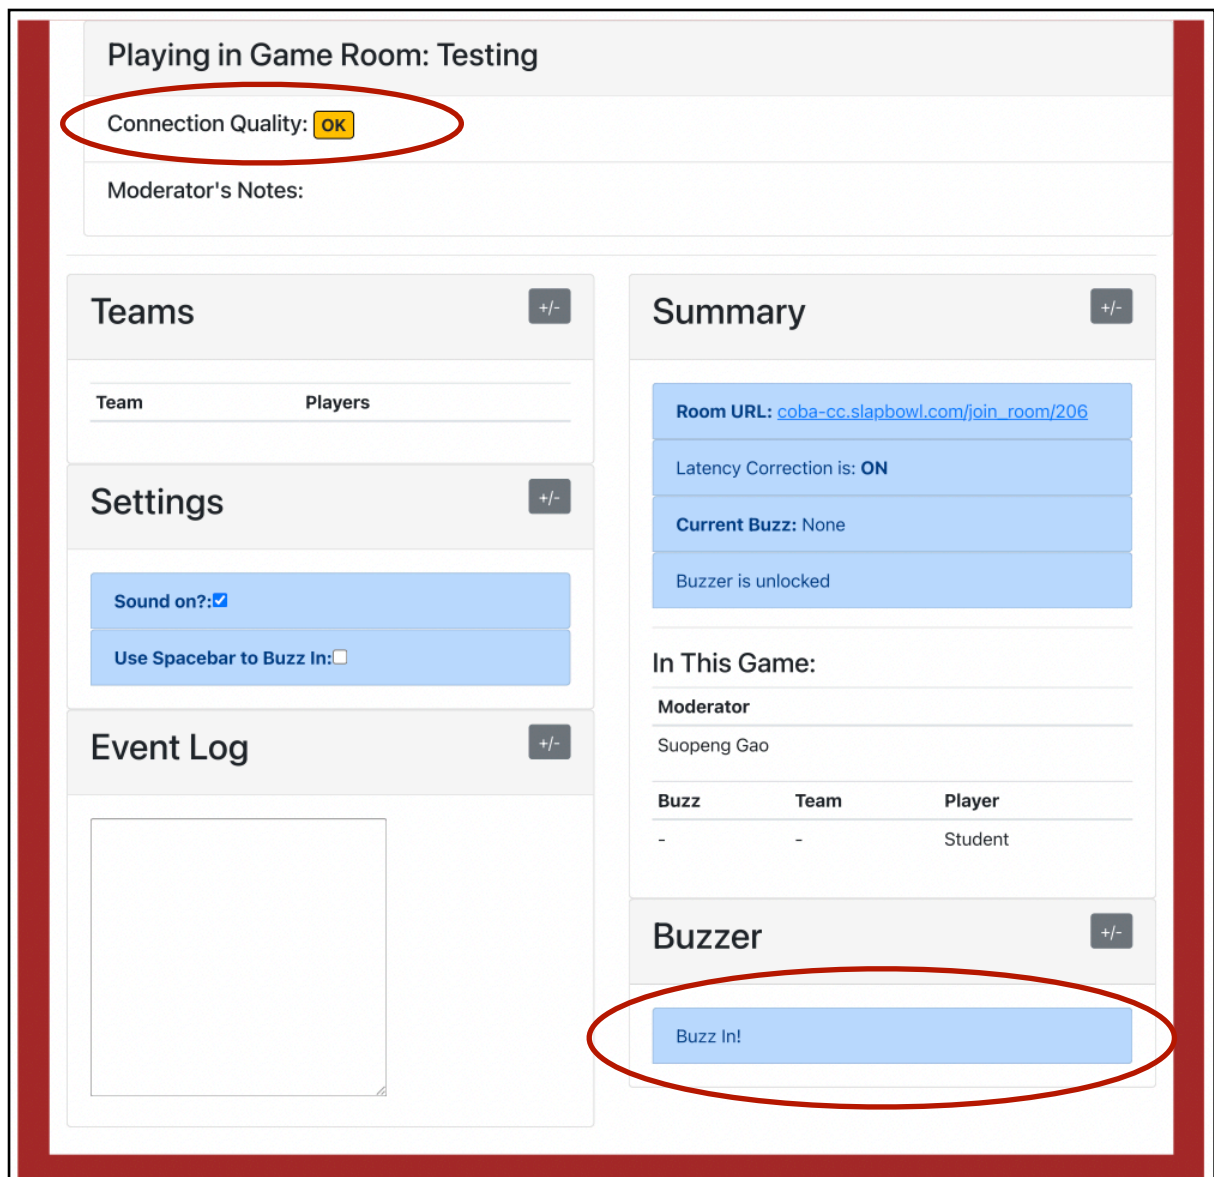

Step 1: go to https://coba-cc.slapbowl.com/join_room/206

Step 2: Log in using any name and the Room Password (all lowercase): test

The screenshot shows a web browser window with the URL coba-cc.slapbowl.com. The page title is "COBA - cc Home Event Hub". There are "Login" and "Register" links in the top right. The main heading is "Joining Room: Testing". Below this, there is a form with two input fields: "Your Name:" with the text "Player 1" and "Room Password:" with the text "test". A blue "Join Room" button is at the bottom of the form.

Step 3: Make sure you can see the Connection Quality & the Buzzer. If you can see these that means you can use COBA.

The screenshot shows the "Playing in Game Room: Testing" interface. At the top, "Connection Quality: OK" is circled in red. Below this is a "Moderator's Notes" section. The interface is divided into several panels: "Teams" (with a +/- toggle), "Settings" (with a +/- toggle), "Event Log" (with a +/- toggle), "Summary" (with a +/- toggle), and "Buzzer" (with a +/- toggle). The "Summary" panel contains: "Room URL: coba-cc.slapbowl.com/join_room/206", "Latency Correction is: ON", "Current Buzz: None", and "Buzzer is unlocked". The "In This Game:" section shows a "Moderator" named "Suopeng Gao" and a table with columns "Buzz", "Team", and "Player". The table has one row: "- | - | Student". The "Buzzer" panel at the bottom has a blue "Buzz In!" button, which is also circled in red.

Troubleshoot: If you have issues using COBA, try different web browsers, devices, and or internet connection.
